Geek Inc

Jan 2022– Jan 2023

Development leader and Mobile Developer

Mexico City, MX

- Led the development of a mobile application using Flutter, GraphQL, and AWS:
 - Took on a leadership role in the development of a mobile application using Flutter, GraphQL, and AWS technologies.
 - Led the team in designing the application's architecture, ensuring scalability and efficiency.
 - Established connections with microservices and effectively managed state using BLoC (Business Logic Component) pattern.
- Led, supervised, and mentored a small team:
 - Provided leadership and guidance to a small team throughout the development process.
 - Ensured effective collaboration and communication within the team, promoting a productive and positive work environment.
 - Mentored team members, offering support and guidance to enhance their skills and professional growth.
- Coordinated deployment to various Google and iOS app stores:
 - Oversaw the deployment process, ensuring the successful release of the application to multiple app stores, including Google Play Store and Apple App Store.
 - Managed the necessary steps and requirements for each platform, guaranteeing a smooth and efficient deployment.
- Engaged in negotiations and gathered requirements directly from the client:
 - Acted as the main point of contact for the client, engaging in negotiations and gathering requirements to ensure the application met their needs and expectations.
 - Maintained clear and effective communication with the client, addressing their concerns and providing regular updates on the project's progress.
